OpenText Intelligence

Increase the value of applications with realtime, interactive, highly scalable analytics and appealing visualizations, reports and dashboards

In a digital world, organizations demand analytics-powered applications that deliver insights and information, and empower employees, customers and partners to take action. Organizations want to use big data from a wide range of sources to understand customers and increase engagement and loyalty. IT teams want to deliver high-scale,

By providing all users with realtime information and self-service business analytics, OpenText Intelligence meets business-critical requirements. It enables modern dashboard creation and ad hoc reporting leveraging a fully "What You See Is What You Get" (WYSIWYG) authoring experience in a flexible, visually appealing environment designed to drive user autonomy. It has the scale required to deliver customer-facing applications to millions of users.

OpenText Intelligence transforms any data into meaningful insights with
